Protec, part of the **Fortress Group**, is the UK and Ireland’s Specialist Applicator of polyester powder coatings. With many years of experience we have perfected an electrostatic process that produces a first-class finish every time. Our process is complemented by the high-quality Alesta AP® range of thermoset powder coatings supplied by **DuPont®**; a global leader in the manufacture of powder coatings.

Continued success has enabled us to invest in state-of-the-art powder coating facilities. This allows our team to handle large production runs and facilitates a quick turnaround of your requirement. We are committed to ongoing investment in Research and Development as we bring you the latest in powder coating technology.

Alesta AP® coatings provide a long-lasting, weather and abrasive resistant finish that is aesthetically pleasing. A wide range of colours enables customisation of your product for its application. Powder coating provides an extremely durable finish with a longevity superior to that of standard paint finishes.

These powder coatings meet in full the requirements of BS EN 12206-2004 and BS 6497.

Protec are pleased to offer a collection of 29 BS and RAL Colours from the DuPont® Alesta® range.

Colours and finishes not featured in this Colour Selector Chart can be supplied upon special request. Please contact our sales department for details.
